

# SPRAY RED GREASE

The Berkebile Oil Company's **RED GREASE** is an aluminum complex EP grease, specifically designed to apply as a thin film, that sets up as a thick, high performing grease. The product uses a solvent carrier to stay thin and penetrate hard to reach places, once the solvent has dried the **RED GREASE** thickens and lubricates.

- DISPENSES AS A THIN LIQUID & SETS UP AS A THICK GREASE IN HARD TO REACH PLACES!
- PROVIDES DEEP, PENETRATING ACTION, WITH LONG LASTING LUBRICATION
- WILL NOT BREAK DOWN, HARDEN, OR SEPARATE, EVEN AT EXTREME PRESSURES OR TEMPERATURES!
- RESISTS HEAT UP TO 500°F!
