## PROTECTION FIRST CLASS

### THE ULTIMATE RUST PROTECTION

DIY UNDERCOATING KIT

**KIT INCLUDES:**  
1X PFC APPLICATOR GUN  
1X EXTENSION WAND  
1X Gallon PFC Liquid

Also available in 55 gal drums!

### PRO SYSTEMS

- Large capacity systems
- 2.5 gal. & 5 gal. available
- Ideal for large applications & fleets
- Complete Kit includes: tank, hoses, & spray gun

BPFC-PROSYS

BPFC-PROSYS25

**PFC AVAILABLE IN AMBER OR BLACK**

# PROTECTION FIRST CLASS **UNDERCOATING KIT**

The left half of the vehicle shown was treated with Protection First Class before winter. The right side was not. The pictures show the condition of the vehicle the following spring. It is clear to see how well Protection First Class prevents rust during the harshest months of the year.

## UNDERCOATING WITH PROTECTION FIRST CLASS IS EASY AS 1,2,3!

### 1. CLEAN

THOROUGHLY CLEAN THE VEHICLE'S UNDERCARRIAGE WITH A PRESSURE WASHER & SOAP TO REMOVE BUILT UP GRIME AND ROAD DEBRIS.

### 2. POUR

POUR LIQUID PROTECTION FIRST CLASS INTO THE UNDERCOATING GUN'S RESEVIOR & ATTACH TO A COMPRESSED AIR SYSTEM SET AT 60 PSI.

### 3. SPRAY

SPRAY PROTECTION FIRST CLASS, COVERING THE ENTIRE UNDERCARRIAGE WITH A THICK LAYER OF PRODUCT. PROTECTION FIRST CLASS WILL MAINTAIN A GEL-LIKE STATE, SO NO NEED TO WAIT FOR IT TO DRY OR CURE! SIMPLY CLEAN AWAY ANY EXCESS OR OVERSPRAY WITH HOT, SOAPY WATER.

## WHY PROTECTION FIRST CLASS UNDERCOATING?

- INEXPENSIVE ALTERNATIVE TO RUBBERIZED UNDERCOATING
- REMAINS SOFT AND SELF-HEALS OVER TIME
- TRANSLUCENT FILM WON'T COVER UP POTENTIAL DAMAGE
- SAFE FOR PAINTED AND PLASTIC SURFACES
- PREVENTS DIRT & MUD BUILD UP, IDEAL FOR 4X4 VEHICLES!

## PROTECTION FIRST CLASS TOP LANOLIN COMPETITOR

Salt spray testing closely simulates the conditions vehicles face during harsh winters in locations that use highly corrosive roadway treatment chemicals.

Individual steel plates were cleaned and then treated with Protection First Class and a "Top Lanolin-Based Competitor" separately according to each product's directions for use. The plates were then exposed to a continuous, direct spray of 5% salt water solution. This is by far the harshest testing Protection First Class has been subjected to and it is clear to see that Protection First Class continues to prevent rust and corrosion even after competing products fail.

## UNDERCOATING KIT INCLUDES

- 1 X Undercoating Gun
- 1 X Gallon of PFC Fluid
- 1 x Undercoating Extension Wand
